

BAI Announces New Website

16 January 2018

FOR IMMEDIATE RELEASE

Fairlawn, VA. —BAI Information Security is pleased to announce the launch of their newly revamped “Risk Management Framework (RMF) Resource Center” website. The newly designed website offers quick and easy access to essential RMF information as well as a comprehensive description of BAI’s RMF services.

The new website has a clean and uncluttered design, improved mobile functionality and enhanced rich content focused on the company’s mission to provide industry leading RMF training and consulting services. The new website goes live today, January 16, 2018 and is located at the same URL address: www.rmfm.org.

BAI is excited about their new website launch and the robust information it provides for customers. “We believe this new website will allow our visitors a streamlined experience in finding critical RMF information,” said Lon J. Berman, BAI’s Principal Consultant.

BAI’s new website will be updated on a regular basis with RMF news and new course information. Visitors are encouraged to explore the website and sign up for BAI’s newsletter located at <https://rmfm.org/newsletter/>.

About BAI

BAI Information Security is a trusted provider of training and consulting services to the Department of Defense and other federal agencies, along with their supporting contractors and vendors. BAI's core training curriculum is based on the Risk Management Framework (RMF), initially developed by the National Institute of Standards and Technology (NIST) and now implemented throughout the Department of Defense, Federal departments/agencies, and the Intelligence Community. To date, BAI has trained thousands of students internationally on RMF and related processes, and has provided consulting services to numerous government agencies and Fortune 500 companies. Founded in 1974, BAI is headquartered in Fairlawn, Virginia.
