RMF in the Cloud
Training Program Overview & Outline

Background

RMF in the Cloud Training is designed to answer foundational questions about RMF and cloud migration as well as offering BAI's real world experience in cloud migration as a provider of RMF consulting services. *RMF in the Cloud* is a vendor neutral course utilizing our first-hand consulting experience.

Training Overview

Some *RMF in the Cloud* topics include:

- Introduction the Cloud
- FedRAMP and FedRAMP Plus
- Preparation for RMF in the Cloud
- Cloud Inheritance
- Common Pitfalls
- Cloud Tools
- eMASS & the Cloud

Course Prerequisites

A prerequisite to this course is a strong understanding of RMF, and it is highly recommended students complete the 4-day RMF training program prior to registration.

Who should attend?

RMF in the Cloud is open to all students (government and contractors) with an interest in *RMF in the Cloud*, particularly those who have previously completed *RMF for DoD IT Fundamentals* and *RMF for DoD IT In Depth* classes.

Students who have not yet attended RMF training are encouraged to inquire about discounted pricing for a training package that includes *RMF for DoD IT Fundamentals*, *RMF for DoD IT In Depth*, and *RMF in the Cloud*.

Delivery Methods

RMF in the Cloud will initially be offered as an online, instructor-led class, using our Online Personal Classroom™ technology.

RMF in the Cloud is also available as a "Friday supplemental class" to organizations wishing to obtain "on site" RMF training for a group of students.

Learn More

For additional information on RMF in the Cloud training, including initial dates for *RMF in the Cloud*, please call BAI at 1-800-RMF-1903 or visit https://register.rmf.org.
