

**BAI is a leading provider of information security training and consulting services, specializing in the Risk Management Framework (RMF).**

## **Bundled Programs Overview**

### **Quality + Value**

BAI is offering several “Bundling” opportunities. By combining our RMF for DoD IT class with any combination of our 1-day online supplemental classes, our customers can receive a significant discount!

### **One-Day Programs**

eMASS eSENTIALS – provides “how to” guidance for most commonly used eMASS functions

Continuous Monitoring – provides an overview of Information Security Continuous Monitoring (ISCM) principles and practices

RMF in the Cloud – Designed to answer foundational questions about RMF and cloud migration.

CAP – Prep for those getting ready to take the CAP exam from ISC2.

STIG 101 - Designed to answer core questions and provide guidance on the implementation of DISA STIGs.

### **Sample Bundles**

Below are a few bundling examples but remember, you can design your bundle:

- RMF + STIG 101 + eMASS
- RMF + eMASS + Continuous Monitoring + RMF in the Cloud
- RMF + STIG 101 + CAP Exam Prep
- RMF + eMASS + RMF in the Cloud
- RMF + Continuous Monitoring + CAP

### **About Us**

BAI is a small business based in Southwest Virginia. BAI has been providing information security, training and consulting services for over four decades. Our customers include numerous Federal and DoD agencies, contractors, vendors and service providers. Since its inception in 2006, our DIACAP, FISMA and RMF training programs have enabled thousands of individuals to better carry out their information security mission. Principal consultant, Lon Berman has 40+ years IT and information security experience and he is a recognized authority in security authorization (certification and accreditation) of DoD and Federal systems.
